

ECS 3.0 IN-CEILING SPEAKER

Compatible With Dolby Atmos®

The new ECS 3.0 is a 3 inch full range in-ceiling speaker designed to produce audiophile quality sound and occupy a very compact space (3.19" x 2.51"). The self-enclosed new ECS 3.0 ultra-compact speaker is an ideal choice for background music. It can effortlessly produce full range music without strain.

With a resemblance to a ceiling recessed spotlight with paintable grille and frame, the ECS 3.0 can invisibly blend in with its environment. Whether you want background/ambient music or practical enhancement to your surround sound, the ECS 3.0 In-Ceiling speaker is the ideal speaker for the job. The ECS 3.0 is also compatible with Dolby Atmos® which will bring your home theater experience to a whole new level.

Mounting the speaker in the ceiling is a very easy process. Using the provided cutout template; simply cut the mounting hole, connect the ECS 3.0 using the easy connect push terminals, and snap the speaker in place. The built-in mounting clips system will do the rest of the work.
